Skills

Technical

- Html,CSS, Javascript
- React
- Bootstrap
- Java
- Python
- Mysql
- Linux(Basics)

Softskill

* Problem Solving

* Time Management

* Leadership

Education

- **Chandigarh University**   **2023 - Present**
  MCA

- **IPS ACADEMY**   **2018 - 2021**
  BSc(Computer Science)

Projects

- **Resume Builder** - Developed a dynamic and user-friendly Resume Builder application using HTML, CSS, JavaScript, and Bootstrap. This project enables users to create professional resumes by inputting their personal and professional information into a structured format.

- **Myntra Clone** - Created a fully functional e-commerce website mimicking the features of Myntra using HTML, CSS, JavaScript, React. Implemented product listings, search functionality, and a shopping cart system. Utilized React for efficient state management and Bootstrap for a responsive user interface.

- **Stone-Paper-Scissor Game** - Built an interactive Stone-Paper-Scissor game allowing users to play against the computer. Implemented game logic, score tracking, and user interface enhancements to create an engaging and visually appealing experience.

Certifications/Courses

- ReactJS   Infosys Springboard
